QUESTION 1

=====

QUESTION:

A company is planning to run a global marketing application in the AWS Cloud. The application will feature videos that can be viewed by users. The company must ensure that all users can view these videos with low latency. Which AWS service should the company use to meet this requirement?

OPTIONS:

- A. AWS Auto Scaling
- B. Amazon Kinesis Video Streams
- C. Elastic Load Balancing
- D. Amazon CloudFront

ANSWER:

D

Amazon CloudFront

CONFIDENCE: high

COMMUNITY VOTES:

D = 170

A = 2

B = 1

=====

QUESTION 2

=====

QUESTION:

A company has deployed applications on Amazon EC2 instances. The company needs to assess application vulnerabilities and must identify infrastructure deployments that do not meet best practices. Which AWS service can the company use to meet these requirements?

OPTIONS:

- A. AWS Trusted Advisor
- B. Amazon Inspector
- C. AWS Config
- D. Amazon GuardDuty

ANSWER:

CONFIDENCE: high

COMMUNITY VOTES:

B = 20

D = 2

A = 4

C = 1

URL:

<https://www.examttopics.com/discussions/amazon/view/123348-exam-aws-certified-cloud-practitioner-clf-c02-topic-1/>

=====

QUESTION 3

=====

QUESTION:

A company has a centralized group of users with large file storage requirements that have exceeded the space available on premises. The company wants to extend its file storage capabilities for this group while retaining the performance benefit of sharing content locally.

What is the MOST operationally efficient AWS solution for this scenario?

OPTIONS:

- A. Create an Amazon S3 bucket for each user. Mount each bucket by using an S3 file system mounting utility.
- B. Configure and deploy an AWS Storage Gateway file gateway. Connect each user's workstation to the file gateway.
- C. Move each user's working environment to Amazon WorkSpaces. Set up an Amazon WorkDocs account for each user.
- D. Deploy an Amazon EC2 instance and attach an Amazon Elastic Block Store (Amazon EBS) Provisioned IOPS volume. Share the EBS volume directly with the users.

ANSWER:

CONFIDENCE: high

QUESTION 97

=====

QUESTION:

How does AWS Cloud computing help businesses reduce costs? (Choose two.)

OPTIONS:

- A. AWS charges the same prices for services in every AWS Region.
- B. AWS enables capacity to be adjusted on demand.
- C. AWS offers discounts for Amazon EC2 instances that remain idle for more than 1 week.
- D. AWS does not charge for data sent from the AWS Cloud to the internet.
- E. AWS eliminates many of the costs of building and maintaining on-premises data centers.

ANSWER:

BE

AWS enables capacity to be adjusted on demand.

AWS eliminates many of the costs of building and maintaining on-premises data centers.

QUESTION 431

=====

QUESTION:

A company is moving its development and test environments to AWS to increase agility and reduce cost. Because these are not production workloads and the servers are not fully utilized, occasional unavailability is acceptable.

What is the MOST cost-effective Amazon EC2 pricing model that will meet these requirements?

OPTIONS:

- A. Reserved Instances
- B. On-Demand Instances
- C. Spot Instances
- D. Dedicated Hosts

ANSWER:

CONFIDENCE: medium

COMMUNITY VOTES:

C = 2

QUESTION 434

=====

QUESTION:

A company wants to build an application that uses AWS Lambda to run Python code.

Under the AWS shared responsibility model, which tasks will be the company's responsibility? (Choose two.)

OPTIONS:

- A. Management of the underlying infrastructure.
- B. Management of the operating system.
- C. Writing the business logic code.
- D. Installation of the computer language runtime.
- E. Providing AWS Identity and Access Management (IAM) access to the Lambda service.

ANSWER:

CE

Writing the business logic code.

Providing AWS Identity and Access Management (IAM) access to the Lambda service.

QUESTION 478

=====

QUESTION:

Which combination of AWS services can be used to move a commercial relational database to an Amazon-managed open-source database? (Choose two.)

OPTIONS:

- A. AWS Database Migration Service (AWS DMS)
- B. AWS software development kits (SDKs)
- C. AWS Schema Conversion Tool
- D. AWS Systems Manager
- E. Amazon EMR

ANSWER:

AC

AWS Database Migration Service (AWS DMS)

AWS Schema Conversion Tool

QUESTION 670

=====

QUESTION:

A company is planning to migrate to the AWS Cloud. The company is conducting organizational transformation and wants to become more responsive to customer inquiries and feedback.

Which task should the company perform to meet these requirements, according to the AWS Cloud Adoption Framework (AWS CAF)? (Choose two.)

OPTIONS:

- A. Realign teams to focus on products and value streams.
- B. Create new value propositions with new products and services.
- C. Use agile methods to rapidly iterate and evolve.
- D. Use a new data and analytics platform to create actionable insights.
- E. Migrate and modernize legacy infrastructure.

ANSWER:

AC

Realign teams to focus on products and value streams.
Use agile methods to rapidly iterate and evolve.

CONFIDENCE: low

QUESTION 808

QUESTION:

Which design principles should a company apply to AWS Cloud workloads to maximize sustainability and minimize environmental impact? (Choose two.)

OPTIONS:

- A. Maximize utilization of Amazon EC2 instances.
- B. Minimize utilization of Amazon EC2 instances.
- C. Minimize usage of managed services.
- D. Force frequent application reinstallations by users.
- E. Reduce the need for users to reinstall applications.

ANSWER:

EA

Reduce the need for users to reinstall applications.
Maximize utilization of Amazon EC2 instances.

CONFIDENCE: high

QUESTION 988

=====

QUESTION:

A company wants to rightsize its Amazon EC2 instances.

Which configuration change will meet this requirement with the LEAST operational overhead?

OPTIONS:

- A. Add EC2 instances in another Availability Zone.
- B. Change the size and type of the EC2 instances based on utilization.
- C. Convert the payment method from On-Demand to Savings Plans.
- D. Reprovision the EC2 instances with a larger instance type.

ANSWER:

B

Change the size and type of the EC2 instances based on utilization.

CONFIDENCE: medium
